EMPLOYEE AGREEMENT

FOR AND IN CONSIDERATION of the compensation paid to me by Lumera, Inc. (the "Company") and my continued employment by the Company, I hereby agree as follows:

CONFIDENTIALITY

1. I acknowledge that as an employee of the Company, I will learn, come into contact with and have possession of certain proprietary information or facilities that the Company considers as being Confidential Subject Matter. For purposes of this Agreement, "Confidential Subject Matter" includes any and all mechanical, electronic or optic devices, prototype models, specimens, the whole or any portion or any phase of any scientific, technical or business information, designs, processes, photographs, blueprints, procedures, formulas or improvements, any future plans, customer and supplier lists, market studies, cost and price studies, and other subject matter that is not available to the general public without restriction.

2. I will not, at any time, either during or after my employment by the Company, use or disclose, except to the extent necessary in the course of my performance of services for the Company and/or as otherwise authorized in advance in writing by the Company, any Confidential Subject Matter owned by the Company or held in confidence by the Company to any third-party.

3. I will, upon termination of my employment with the Company or upon prior request, deliver to the Company any and all mechanical, electronic or optic devices, objects, materials, devices or substances, including any writing, recording, drawing, sample, specimen, prototype, model, photography, blueprint or map, that describes, depicts, contains, constitutes, reflects or records the Company's proprietary information or other confidential information and all copies thereof in my possession; and I agree to remove, erase or eliminate such information contained on any hard drives or other media for retaining the same that cannot be returned because such information is contained on hardware or a device that is not the property of the Company.

4. I acknowledge that if, either during my employment or thereafter, I disclose to others, use for my own benefit, copy or make notes of any Confidential Subject Matter or fail to disclose any invention of mine or conflict of interest subject to and defined by this Agreement, such conduct will constitute a breach of this Agreement and the confidence and trust bestowed upon me by the Company and the Company shall have an action at law or in equity to enforce this Agreement.

INVENTIONS

1. I agree that, during the term of my employment with the Company, I will immediately disclose in writing to the Company every product, process, apparatus, design or invention, whether patentable or not, that I, individually or jointly, may invent, develop, discover, conceive or originate that directly relates to the actual or anticipated business of the Company and/or to the actual or demonstrably anticipated research or development activities of the Company and/or that results from any work performed on behalf of the Company. I acknowledge and agree that immediately upon the earlier of conception or generation, all such subject matter disclosed and to be disclosed by me to the Company during the term of my employment with the Company is and will be the sole and exclusive property of the Company and I hereby assign the same to the Company.

2. I further agree that during the two-year period following any termination of my employment with the Company, I will immediately disclose in writing to the Company every product, process, apparatus, design or invention, whether patentable or not, that I, individually or jointly, may invent, develop, discover, conceive or originate that uses or is based upon or otherwise derived from any Confidential Subject Matter of the Company. I acknowledge and agree that, immediately upon conception or generation, all such subject matter to be disclosed by me to the Company during the two-year period following the termination of my employment with the Company will become the sole and exclusive property of the Company and I hereby assign the same to the Company.

3. I will, provided it is without expense to me, fully cooperate with the Company, in applying for and securing in the name of the Company, or in my name for the Company's benefit, a patent, copyright, patents or copyrights with respect to disclosed discoveries in each country in which the Company may desire to secure such patent or copyright protection. I will promptly execute all proper documents presented to me for signature by the Company to enable it to secure such patent protection or copyright protection and to transfer legal title therein, together with any patent or copyright that may be issued thereon to the Company or to me for the benefit of the Company.

4. A complete description of all inventions, applications for patents and copyrights in which I personally hold an interest, which are not subject to this Agreement, are contained in Exhibit A: "Employee Invention Disclosure."

5. I will, provided it is without expense to me, give such true information and testimony, under oath if requested, as may be requested of me by the Company, relative to any discoveries that are disclosed to the Company under the terms of this Agreement.

6. Notice provided pursuant to Washington law: This Agreement does not apply to any invention for which no equipment, supplies, facility or trade secret information of the Company was used and which was developed entirely on my own

time, unless (a) the invention relates (i) directly to the business of the Company, or (ii) to the Company's actual or demonstrably anticipated research or development, or (b) the invention results from any work performed by me for the Company.

CONFLICT OF INTEREST

1. I acknowledge that I have read and understand and will comply with the Conflict of Interest Policy of the Company as it appears in Exhibit B: "Conflict of Interest Policy" attached to this Agreement.

2. I agree that, in the course of my employment with the Company, I will not use or disclose any third-party Confidential Subject Matter with respect to which, prior to my employment with the Company, I assumed obligations restricting such use or disclosure.

4. I acknowledge and agree that I will not assume any obligation to any third-party that would conflict with any of my obligations hereunder.

NON-COMPETITION

1. During the term of my employment with the Company and for two years thereafter, I will not, directly or indirectly, be employed by, own, manage, operate, join or control, participate or be connected in any manner with any enterprise involved in the field of scanner-based imaging equipment, microscanners, or optical scanning or in the field of electro-optic organic materials or related materials for telecommunications or data communications applications. I understand that I shall be deemed to be connected with a business if such business is carried on by a partnership in which I am a general or limited partner, consultant or employee, or a corporation or association of which I am a shareholder, officer, director, employee, member, consultant or agent; provided that nothing herein shall prevent the purchase or ownership by me of shares of less than 1% of the outstanding shares in a publicly or privately held company.

2. Commencing as of the date of this Agreement and continuing until two years after the termination of my employment with the Company, I shall not solicit the employment of personnel employed by the Company or by any direct or indirect parent or subsidiary of the Company.

MISCELLANEOUS

This Agreement is made under and shall be construed according to the laws of the State of Washington. If any term or provision of this Agreement is found to be invalid or unenforceable, the remainder of the Agreement shall be severed and enforced in a manner as to give effect as nearly as possible to the intent of the parties in entering into this Agreement.
